

Non Executive Director – Library

In July 2015 the Centre and its Volunteers will take over the daily management of the Library. To support this new area of responsibility and its development we are seeking to appoint a Director to our Board. This is a strategic role and we welcome applications from individuals who have operated at senior level within private or public sector organisations.

We have a dedicated team of volunteers who provide 54 hours of customer service support weekly within the library, they also plan and run reader development events and activities such as reading groups, children's crafts and author visits. This new role of Library Director will liaise between the volunteers, Centre Management and Board to ensure the library is fully integrated to the organisation and will contribute to future plans to ensure the Centre is sustainable.
